

# Team 1 5. Final testing report

## GetTest documentation

[Team 1 2. Test cases](#)

### Testing report

API method or Test cases		Team member name Agnes Nauka	Team member name Tuuli Pesur	Team member name Märt Mändla
		Date of retesting: 03.10.2023	Date of retesting: 03.10.2023	Date of retesting:
Leads API				
Method 1: Retrieve a list of things of type lead with some optional search constraints. Retrieves 100 items at most at once.		Passed		
Method 2: Get the list of leads - Parameter - limit		Passed		
Method 3: Get the list of leads - Parameter - cursor		Passed		
Method 4: Get the list of leads - Parameter - sort_field		Passed		
Method 5: Get the list of leads - Parameter - descending		Passed		
Method 6: Get the list of leads - Parameter - constraints		Passed		
Method 7: Retrieve a thing of type lead by unique ID		Passed		
Method 8: Post a new lead - Without full name text		Failed  T7CAB-63: Lead API - Full name text is not mandatory VAJA TEHA		
Method 9: Post a new lead - Without company text		Failed  T7CAB-61: Lead API - Company text isn't mandatory VAJA TEHA		
Method 10: Post a new lead - Without email text		Failed  T7CAB-62: Lead API - Email text is not mandatory VAJA TEHA		
Method 11: Post a new lead - Company text more than 50		Failed  T7CAB-64: Lead API - More than 50 characters are		

characters		<div>allowed for company text</div> <div>VAJA TEHA</div>	
Method 12: Post a new lead - Full name text more than 50 characters		<div>Failed  T7CAB-65: Lead API</div> <div>- More than 50 characters are allowed for full name text</div> <div>VAJA TEHA</div>	
Method 13: Post a new lead - Email text more than 100 characters		<div>Failed  T7CAB-66: Lead API</div> <div>- More than 100 characters are allowed for email text</div> <div>VAJA TEHA</div>	
Method 14: Deletes a thing of type lead by unique ID		Passed	
Method 15: Modifies a thing of type lead by unique ID		Passed	
Method 16: Replaces a thing of type lead by unique ID		Passed	
<b>Magicuser API</b>			
Method 1: Get the list of all magicusers	Passed		
Method 2: Get the list of things - limit 0	Passed		
Method 3: Get the list of things - limit 1	Passed		
Method 4: Get the list of things - limit 101	Passed		
Method 5: Get the list of things - limit -10	Passed		
Method 6: Get the list of things - cursor 0	Passed		
Method 7: Get the list of things - cursor 1	Passed		
Method 8: Get the list of things - sorting email_text	Passed		
Method 9: Get the list of things - sorting Modified date	Passed		
Method 10: Get the list of things - descending true	Passed		
Method 11: Get the list of things - descending false	Passed		

Method 12: Get the list of things - constraints equals team1newuser@gmail.com	Passed		
Method 13: Post request - more than 100 symbols in email	Failed  T7CAB-32: Magicuser - POST - Can enter email longer than 100 symbols VAJA TEHA		
Method 14: Post request - email not in correct format	Failed  T7CAB-31: Magicuser - POST - can enter random text in email field VAJA TEHA		
Method 15: Post request - email field is not mandatory	Failed  T7CAB-30: Magicuser - POST - email not mandatory VAJA TEHA		
Method 16: Post request - email is integer	Passed		
Method 17: Post request - email is left empty	Passed		
<b>Funnels and Stages API</b>			
Get Funnel 1: Get list of all funnels - limit   0			Passed
Get Funnel 2: Get list of all funnels - limit   100			Passed
Get Funnel 3: Get list of all funnels - cursor   0			Passed
Get Funnel 4: Get list of all funnels - cursor   20			Passed
Get Funnel 5: Get list of all funnels - sort_field   name_text			Passed
Get Funnel 6: Get list of all funnels - descending   true			Passed
Get Funnel 7: Get list of all funnels - descending   false			Passed
Get Funnel 8: Get list of all funnels - constraints   name_text equals Projects funnel			Failed  T7CAB-339: Funnels and Stages API - Funnels constraint not working VAJA TEHA
Get Funnel 9: Get Funnel data by unique id			Passed
Post Funnel 10: Create a new funnel			Failed  T7CAB-85: Funnels and Stages API - Missing Requirements VAJA TEHA

Patch Funnel 11: Modify funnel data			Passed
Put Funnel 12: Replace funnel data			Passed
Del Funnel 13: Delete funnel			Passed
Get Stage 1: Get list of all stages - limit   0			Passed
Get Stage 2: Get list of all stages - limit   100			Passed
Get Stage 3: Get list of all stages - cursor   0			Passed
Get Stage 4: Get list of all stages - cursor   20			Passed
Get Stage 5: Get list of all stages - sort_field   name_text			Passed
Get Stage 6: Get list of all stages - descending   true			Passed
Get Stage 7: Get list of all stages - descending   false			Passed
Get Stage 8: Get list of all stages - constraints   name_text equals Revise			Passed
Get Stage 9: Get stage data by unique id			Passed
Post Stage 10: Create a new stage			Failed  <a href="#">T7CAB-85: Funnels and Stages API - Missing Requirements</a> VAJA TEHA
Patch Stage 11: Modify stage data			Passed
Put Stage 12: Replace stage data			Passed
Del Stage 13: Delete stage			Passed
<b>Deals API</b>			
D1: Get the list of all deals		Passed	
D2: Get the list of all deals with search constraints		Passed	
D3: Get the list of deals - search by title		Passed	
D4: Get the list of deals - search with non existing conditions		Failed  <a href="#">T7CAB-259: Deal API</a> - Wrong code message appear	

		ing VAJA TEHA	
D5: Get the list of deals - search by uniqueID		Passed	
D6: Get the list of deals - search by non existing uniqueID		Failed  T7CAB-259: Deal API - Wrong code message appear ing VAJA TEHA	
D7: Create a new deal		Passed	
D8: Create a deal without authorization		Passed	
D9: Create a deal without assignee user text		Failed  T7CAB-252: Deal API - Possible to create a deal with out assignee user text VAJA TEHA	
D10: Create a deal without company name text		Failed  T7CAB-253: Deal API - Possible to create a deal with out company name text VAJA TEHA	
D11: Create a deal without deal value estimation number		Failed  T7CAB-254: Deal API - Possible to create a deal with out deal value estimation number er VAJA TEHA	
D12: Create a deal without name text		Failed  T7CAB-255: Deal API - Possible to create a deal with out name text VAJA TEHA	
D13: Create a deal without order number		Failed  T7CAB-256: Deal API - Possible to create a deal with out order number VAJA TEHA	
D14: Create a deal without status option status		Failed  T7CAB-257: Deal API - Possible to create a deal with out status option status VAJA TEHA	
D15: Create a deal without visible to list user		Failed  T7CAB-258: Deal API - Possible to create a deal with out visible to list user text VAJA TEHA	
D16: Create a deal - string text instead of integer		Passed	
D17: Create a deal - wrong string for status option status		Passed	
D18: Patch a deal by unique ID		Passed	
D19: Patch a deal by non existing unique ID		Passed	

D20: Replace a deal data by unique ID		Passed  T7CAB-66: Lead API - More than 100 characters are allowed for email text VAJA TEHA	
D21: Delete a deal without authorization		Passed	
D22: Delete a deal with authorization		Passed	
Method 1: Parameter - Limit should be 100 and default is 50		Failed  T7CAB-276: Deal API - Default limit should be 50 but is 100 VAJA TEHA	
Method 2: Parameter - Position to start from the list.		Passed	
Method 3: Parameter - Sort field		Passed	
Method 4: Parameter - Descending		Failed  T7CAB-277: Deals API - Descending shows a result with missing a boolean VAJA TEHA	
<b>Notes API</b>			
N1 - Get the list of all notes	Passed		
N2 - Get the list of all notes and sort them by creation date	Passed		
N3 - Get the list of all notes starting from cursor 1, not 0	Passed		
N4 - Get the list of all notes and check param limit is 10	Passed		
Method 1: Check if limit is set by default	Failed  T7CAB-243: Notes API - GET - The list of all notes gives more than 50 by default VAJA TEHA		
Method 2: Check if limit can be other than integer e.g text or non integer	Failed  T7CAB-244: Notes API - GET - The list of all notes, limit can be other than integer VAJA TEHA		
N5 - Get the list of all notes and check boolean	Passed		
N6 - Get the note when the constraints equals 'hey there'	Passed		
N7 - Get the note when the constraint is text_contains 'client'	Passed		
N8 - Get the note when the	Passed		

constraint is empty			
N9 - Get the note with unique ID	Passed		
N10 - Create a new note 'Test for team1' and check the created object	Passed		
N11 - Create a new note without any info (content_text)	Passed		
N12 -Create, Delete note and check data - Check if it is possible to delete a note after creating one, then check if it was deleted	Passed		
N13 - Create a new note when content_text is boolean	Passed		
Method 3: Create a new note when content_text is integer	Passed		
N14 - Create a note 'There are 3 members in this team' and check the created object	Passed		
N15 - Update a note N14 with the text 'There are 11 members in this team' and check the data	Passed		
Method 4: Replace an old note 'This is an old note' with the new one	Passed		
Method 5: Put a new note to an existing deal	Passed
